The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out.

Nine of the Principal Cities and Municipalities of Western Canada are Standing Advertisements of the merits of the

Bitulithic Pavement

The Ideal Boulevard

This pavement is constructed by the latest scientific process, and excels all others in durability, ease of maintenance, and is more economical than Block.

Its rough, gritty surface makes it the ideal pavement for driving and motoring. Horses step out freely without fear of slipping, and motor cars do not skid when the pavement is wet.

Overland 4 introduces the most important improvements in comforts to passengers, and preserving the chassis, since pneumatic tires made motoring possible.

Its Three-Point Cantilever Springs create a riding buoyancy which at once establishes Overland 4 as a new type of car.

Overland 4 satisfies the public demand for a light car of real quality.

It likewise satisfies a discriminating public in a demand for a car of pleasing appearance.

In short, while Overland 4 stands out conspicuous in motordom for its exceptional riding qualities and economy, it has the roadability, quality and bountiful equipment that distinguish a high-class automobile.

Come in and see this remarkable car.

Introductory

THE PUBLISHERS take pleasure in presenting herewith the Forty Second Annual Edition of Henderson's Winnipeg Directory, embracing the area of GREATER WINNIPEG, comprising the City proper, Elmwood, St. Boniface, Norwood, St. Vital, St. James, St. Charles, Assiniboia, East and West Kildonan.

The Advertising Department presents the names of corporations, firms and individuals who have made Winnipeg the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume contains statistics and information, much of which is not found elsewhere in print.

The value of the street directory is not appreciated to the extent it should be by some who desire to locate a certain house on a street unfamiliar to them. By application of the following example the location of any street number can be found expeditiously: Suppose 368 Langside is wanted: refer to street section, Langside—glance down to 368, then to the nearest intersection to 368. It will be found that this number is on the west side of the street, four houses north of Portage, between Portage and Furby Place.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Winnipeg, which forms a most effcient wholesale and retail buyer's guide.

ADVERTISING WINNIPEG

The Winnipeg Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its industries.

POPULATION

Year	Estimated Population	Year	Estimated Population
1910	172,865	1916	239,079
1911	204,145	1917	247,367
1912	227,339	1918	262,077
1913	260,436	1919	256,140
1914	276,177	1920	271,958
1915	273,047		

The Directory method of estimating a population is to multiply the individual names the Directory contains by a common multiple. The majority of these names are men, generally the heads of families.

The following figures are submitted as in the opinion of the publishers most nearly representing the growth of population in Winnipeg. They are, however, more in the nature of a calculation. A complete census, only, can give definite and accurate figures.

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Winnipeg have always shown in their publications.
